# My first trip to Skopje

During my weekend in Skopje, I try to visit the most things. For my first day, I visit Mother Theresa's official house, Skopje Zoo, Fortress, Skopje Municipal Park, Woman Warrior Park, Street Art & Graffiti Gallery and I visit the streets and I saw a lot of statues and monuments, for example I saw the "Porta Macédoine" (which looks a lot like the Parisian triumphal arch), the city bridges over the river and of course the famous big square of Skopje and the warrior statute on horseback of more than 24 meters. The architecture of Skopje is very different from France, the architecture of Skopje is Ottoman architecture I think and it is really pretty and pleasant to walk through the streets of Skopje. On my second day in the capital I tried to visit the Holocaust museum but it was closed, nevertheless i visit the Macedonian Archaeological Museum and it was so interesting, I also visited the Church of St. Clement of Ohrid and she is so beautiful, I went to see the St. Bogorodica chruch and the Aladja and Mustafa Pacha Mosque, and to end the day I walked around in the Old bazar and it is very pleasant to walk in the cobbled streets and its ancient landscapes. For the end, this is my first time in Skopje and I loved a lot visiting this city and walk everywhere it's the streets and parks.
